WITH WHOM?

A project led by several local associations and collectives — Cévennes 2050, Fruits Oubliés et biodiversité en Cévennes and Terres Vivantes en Cévennes — brought together within the Cerise association for this project. With the support of a network of partners in the social and solidarity economy.

FOR WHOM?

Everyone! An open resource space to come and learn and train, for individuals and professionals alike. With special attention to young people and to those affected by food and energy insecurity.

HOW?

- Give farmers access to land
- Renovate housing for farmers and project leaders,
- Offer welcoming spaces,
- Create shared spaces and workshops,
- Develop accessible training and tools around self-sufficiency.
- Sustain collective governance to ensure a lasting, shared place.

WHERE?

At the CAMBON farm, on the banks of the Gardon in Mialet (30). A typical Cévennes farm with 14 ha of terraces and forest, springs, pools and a building of over 300 m².

** Commons: commons are resources managed collectively by a community, which sets rules and governance in order to preserve and sustain the resource (lescommuns.org)*

THE CAMBON FARM A COMMONS* FOR

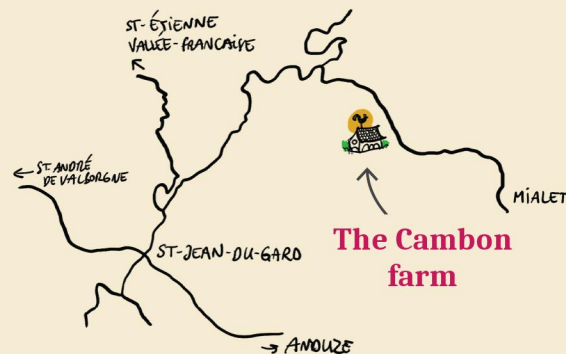

...

EXPERIMENT

Test concrete solutions to better face climate, economic and social crises.

SUSTAIN

A resource place for the area's self-sufficiency, ensuring its shared use over time.

PRODUCE AND PROCESS

Grow vegetables, berries, wood and dreams, then turn them into local resources, shared know-how and collective projects.

PASS ON

Techniques and knowledge suited to the ecological, social and energy challenges ahead.
